We are drowning in information and severely starving for wisdom today. Fortunately, we are empowered with demographic dividend knocking on our door. We just need to break the cocoon and let in the beautiful colours of knowledge. I am sure in the coming years, we shall successfully channelize the halo of the young minds to explore best of their abilities.

Towards the end, I thank the supportive management whose continuous support to our ideology of education has enabled the school to come this far. Teachers and the entire staff members also deserve applause for their tireless efforts in implementing the route map of imparting unflinching faith in us by giving us the profound opportunity to transform their children into truly useful citizens of the future world.

With that, let us foresee a world of universal singularity where our children are going to be the propellant of this change and the world shall be a beautiful place to live in.
